

AMENDMENTS TO THE SPECIFICATION

Please amend the sections of the specification as follows:

Page 1, line 5 to page 1, line 10.

BACKGROUND OF THE INVENTION

1. Field of the Invention

A1 The present invention disclosure relates to computer systems. More specifically, the present invention disclosure relates to enabling removal of a removable medium of a boot device included in a computer system when booting an embedded operating system from a read only media.

2. Description of Related Art

Page 4, line 11.

SUMMARY OF THE INVENTION

Page 5, line 25 to page 5, line 29.

A2 BRIEF DESCRIPTION OF THE DRAWINGS

The present invention disclosure may be better understood, and its numerous objects, features and advantages made apparent to those skilled in the art by referencing the accompanying drawings. The use of the same reference number

A2

throughout the several figures designates a like or similar element.

Page 6, line 7 to page 6, line 9.

A3. DETAILED DESCRIPTION

The following description of the invention disclosure is intended to be illustrative only and not limiting.

Page 15, line 16 to page 15, line 19.

A4 Although the method and system of the present invention disclosure has been described in connection with the preferred embodiment, it is intended to cover such alternatives, modifications, and equivalents, as can be reasonably included within the spirit and scope of the invention disclosure as defined by the appended claims.
